

***Chapter 16***  
***Environmental Protection Zone***

## **Environmental Protection Zone**

1. Based on research in surrounding areas, and discussions with the Department of Environment, the Town of Port au Port East is increasing its Environment Protection Zone. Where there is a change of soil erosion, the EP Zone will increase from 50 to 100 feet from the edge of the bank in all areas of town. No construction or development is permitted in these areas.
